

STEP 1

Get on the waiting list for an As-Is Energy Rating by calling 1-877-AK-REBATE (877-257-3228) or visiting www.akrebate.com

- AHFC will reimburse up to \$325 of the cost of the As-Is energy rating.

STEP 2

Apply for your As-Is Energy Rating Reimbursement.

- Follow the instructions on the As-Is Energy Rating Reimbursement Invoice and mail it back to the AHFC.

STEP 3

Select improvements from the list of recommendations contained in your energy rating and do one of the following:

- Hire a contractor to complete the work.
- Do the work yourself.
- Hire a contractor to do some jobs and complete others on your own.

STEP 4

After the work is complete, get on the waiting list for a Post Energy Rating to determine the new energy efficiency rating of your home. Call 1-877-AK-REBATE (877-257-3228) or visit www.akrebate.com

- AHFC will reimburse up to \$175 of the cost of the Post Energy Rating.

STEP 5

Apply for your rebates! The amount of money you get back will be based on the difference between the As-Is and Post Energy Ratings.

- Follow the instructions on the Post-Improvement Rating Reimbursement and Rebate Application and mail it back to AHFC.

Summary of the Rebate Formula

The rebate amount is determined by the difference between the As-Is rating and the Post Improvement rating. (For example, if the As-is rating was 3 Star+ and the Post Improvement rating is 4 Star = 1 step = \$4,000.00).

However, a homeowner's rebate is limited to the amount of money spent, regardless of the number of steps between energy ratings. For example, if a homeowner spends \$3,500 on energy efficient improvements, and moves two steps, he or she will only receive a rebate of \$3,500, not \$5,500.

Maximum Rebate Amounts:

- One step - up to \$4,000
- Two steps - up to \$5,500
- Three Steps up to \$7,000
- Four steps up to \$8,500
- Five or more up to \$10,000

Energy Rating and Rating Points

This chart can help you understand the correlation between your energy rating points and the energy rating stars for your home's energy rating. There are 10 steps between rating levels:

Points	Rating	Points	Rating
0-39	1 Star	73-77	3 Star +
40-49	1 Star +	78-82	4 Star
50-59	2 Star	83-87	4 Star +
60-67	2 Star +	88-91	5 Star
68-72	3 Star	92-100	5 Star +

For example:

A rating of 2 Star plus (60-67 points), to 3 Star (68-72 points), would be one step. A rating of 2 Star to 3 Star would be two steps.

Additional Requirements: To be eligible for a rebate, the final energy rating must be at least 1 Star+ and have increased one step and at least five points. This is applicable to all homes with a final rating of 3 Stars or less. For homes with a final rating of 3 Star+ or more, at least one step and three points increase is required.
